**POWERFUL  
DURABLE  
SIGNIFICANT  
EFFICIENT**

As Dizayn Group, we develop technologies to make life easier and produce solutions to problems of humanity since our establishment.

While continuously carrying on our R&D activities, we develop our products with the latest technology.

Leading the change in its sector with countless new technologies it developed, Dizayn Group offers HI-TECH 2, the first choice of craftsmen with its quality. HI-TECH 2 Series, formed by experienced craftsmen's wants and needs, will be the main squeeze of the competent craftsmen who care about even the smallest detail.

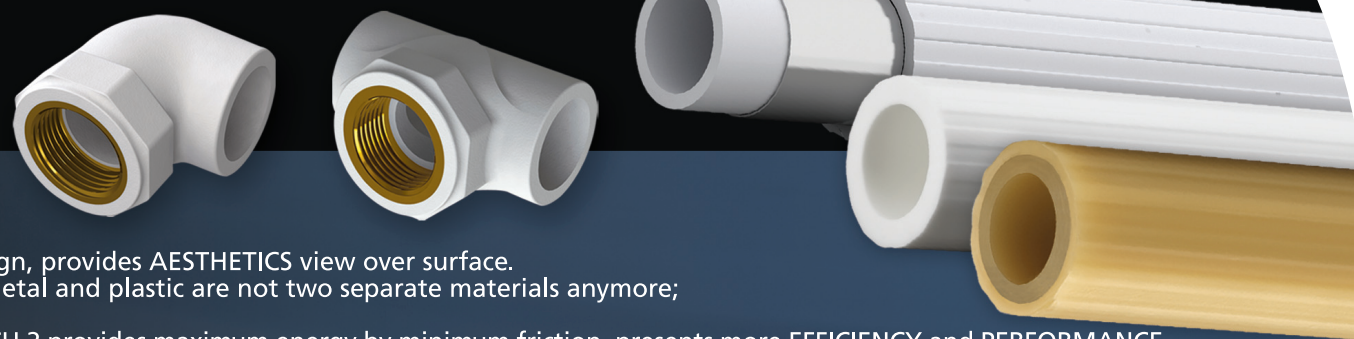

**HI-TECH 2- MASTERS CAN SEE THE DIFFERENCE**

## Brand new product of Dizayn Technology: HI-TECH 2

### Advantages

- Only with Dizayn products, you DO NOT have CONstriction PROBLEMS at welding points thanks to their special design. Any installation works easily.
- The knurled structure of the metal in male fittings provides EASY USAGE.
- HI-TECH 2 While being applied easily under the surface with its excellent design, provides AESTHETICS view over surface.
- They are durable thanks to their high torque strength; they DO NOT LEAK. Metal and plastic are not two separate materials anymore; they act as if they are one single material.
- Local loss factor coefficients are reduced with specially designed fittings. HI-TECH 2 provides maximum energy by minimum friction, presents more EFFICIENCY and PERFORMANCE.
- Dizayn WIPED OUT the problem of leakage between metal and plastic that is the nightmare of craftsmen. HI-TECH 2 metal fittings provide complete IMPERMEABILITY.
- The metal parts which meet German DIN 50930-6 (EN 12502) standard is ECO-FRIENDLY and they do not change the quality of water; HI-TECH 2 is more durable and long lived.
- Thanks to its specially designed pipes and fittings, HI-TECH 2 provides CLEANER WELDING. You never face the problem of unpleasant appearance of extra material which can be seen with other products while melting process.
- While HI-TECH 2 provides maximum time and energy SAVING by its advantage of easier and faster welding, HI-TECH 2 pipes with knurled surface provide much more qualified mounting (Leaves more plastic between fittings and pipes).
- Pipes' specially designed knurled surface provides PERFECT ALUM COMPLIANCE.
- Thanks to specially designed pipe surface, NO MORE CRACKING PIPES with cold... HI-TECH 2 pipes' impact strength is raised by %30.
- Dizayn HI-TECH 2 Series provides stylish view to modern installations with its gold, silver and ivory colors in addition to white, grey and green.

Dizayn Group is a Mir Holding company.
